Ethnet Ltd are a leading internet service provider. We supply the technology to ensure the smooth running of your business or event. Our PDQ machines have been used throughout the UK in small businesses and at large events alike.

Ethnet uses the latest technology available, As well as using GPRS payment machines, Ethnet use high speed WIFI machines which process transactions in 3 seconds over a wireless network.

PDQ Machines

Two different solutions to suit different business types.

GPRS

- Suitable for merchants who wish to take card payments in a mobile environment.
- In partnership with Vodafone and O2, the leading network operators.
- The terminal operates with optimal speed, reliability and is compliant with the most recent PCI security requirements.

WIFI

- Designed for merchants who have a requirement to take card payments within the proximity of a wireless network.
- Ideally suited to “pay at table” within the hospitality sector.
-

The benefits of using card payment terminals:

- Improve your cash intake.
- Process with chip and pin, one of the most secure ways to take money. Protect against fraud.
- More payment methods means more potential customers.
- Be ahead of other businesses by using the latest technology and attracting more customers.
- No need to handle large volumes of cash, added security against theft and loss.
- Display a modern and professional image.
- Payments made on the spot, no bounced cheques, no need to chase for payments.
- Receive money directly into your bank account, saving you time cashing cheques.
- Take payments anywhere, at events or on the move, reach more customers.
